THE ASYLUM.

The Asylum management is attracting considerable attention in a certain circle. A long list of charges has been drawn and was presented to the Board of Commissioners for the care of the insane to-day. Dr. Dawson courts the closest examination into his management of that institution and claims the trouble has all grown out of personal pique and political prejudice, and that his enemies have resorted to every means in their power to make out a "case." All we know of the management is what we have learned from personal observation at frequent visits to the Asylum, and from a careful reading of his report to the Board submitted in January last. If any mistakes have been committed the present trouble will undoubtedly have the effect to make everyone connected with the place work the harder to correct them.

EDITORIAL NOTES.

Favorable reports come from Washington Territory, whose vast forests of valuable timber furnish an article of export that is wanted in all parts of the world. Thirty years ago Puget Sound's first saw mill was built. To-day there are numerous towns in which lumber sawing is the main industry. In 1881 167,000,000 cubic feet of lumber was exported. The amount sawed in 1882 is estimated at over 300,000,000 feet. The mills are nearly all lighted by electricity, and are the scene of ceaseless labor. Various kinds of forms of industry have arisen out of the abundance of timber, including cooperage and ship-building.

San Francisco has now about 250,000 population and employs 400 policeman. The new charter limits the force to that number "until the census of 1890 is officially published," or until about 1893. Before that time San Francisco will have 375,000 population, and a police force of 400 will be insufficient. During the last twenty years the city has never gone more than five years without an increase of the police force, and it is now proposed that she shall go without an increase for thirteen years—from 1880, when the force was raised to 400, to 1893.

The Dixon (Cal.) Tribune of last Saturday says: It is useless to disguise the fact that farmers are seriously alarmed at the continued dry weather. Summer-fallowed grain is from four to six inches high, and retains a strong color. Volunteer grain does not look so well, but there yet remains ample time for it to recover lost ground. Winter-sown grain looks exceedingly strong, and there appears to be sufficient moisture in the ground to keep it in fair condition for at least ten days.

Dr. Thomas Antisol of Washington read a paper on "The Currents of the Pacific Ocean" last evening at the regular monthly meeting of the American Geographical Society to prove the impossibility or improbability of an open polar sea.

The session of the last legislature began with religious services. And yet pastors throughout the State wonder at the growing disbelief in the efficacy of prayer.

reading a list of the bills allowed by the Storey County Commissioners one would think that the breezy bonanza times still hovered over the Comstock.

The Republican Greenback Labor party in the forty-seventh Congress has issued an address to the country, but it contains nothing new.

It is said that there is great disappointment among merchants and manufacturers over the new tariff laws of the United States.

The latest reports of Mr. Vanderbilt's illness state that he has paralysis of the right arm caused by clipping coupons.

EASTERN DISPATCHES.

[ASSOCIATED PRESS.]

Indignant Reporters.

WASHINGTON, March 5.
 A meeting of newspaper correspondents was held yesterday to express their indignation over treatment received by them from Speaker Kiefer on Saturday night in regard to admission of their families and friends to the journalists' galleries of the House. The conduct censured consisted in the refusal of the Speaker to afford journalists the right secured to them by a standing rule of the House, and the alleged insulting manner in which the refusal was expressed. The language of the refusal was characterized as not only grossly impolite but blasphemous in character concerning the press. It was also said that the Speaker refused to recognize Burrows for the purpose of moving a clearing of the gallery and allowing correspondents to proceed with their usual work. In reply to the House resolutions Speaker Kiefer furnished a long card, in which he denied the profanity attributed to him.

A Songstress in Tears.

BUFFALO, March 5.
 Musical circles here are greatly excited over the failure of the Nilsson concert, owing to light sale of seats. Up to Saturday receipts were about \$2,200. Abbey has cancelled the engagement and the money has been refunded. Mme. Nilsson shed tears over the failure. Finally she concluded that the people of Buffalo did not care to hear her. She was assured by those acquainted with the situation that she had a host of friends here and that the reasons for the failure were of another kind. Public sentiment is opposed to the fancy prices which most concert managers charge. The concert was to have been held in St. James Hall. It has nothing but common wooden chairs and there is nothing attractive about the place for society people.

An Irish Indignation Meeting.

WASHINGTON, March 5.
 A largely attended indignation meeting of Irish citizens was held here to-night, and addressed by Capt. Meagher Condon, and resolutions were adopted charging the British Government with endeavoring to exterminate the Irish people by compelling them to choose between famine, graves and emigration, and calling upon the executive department of this government to employ its power to defeat the purpose of England. An additional resolution protests against the delivery of Sheridan to the British authorities.

Skipped with a Fortune.

NEW YORK, March 5.
 Julius Marcus, a broker, is missing, with \$50,000 belonging to customers. Marcus made a specialty of whisky, having gained the confidence of dealers. Said a wholesale merchant to a reporter: Marcus said to them in an off-hand way, "You don't want to be known in this transaction. Send your warehouse receipts and I will attend to the whole business." A number of firms did so, and after the whisky had been sold Marcus was missing.

The Persistent Trespassers on Indian Territory.

KANSAS CITY, Mo., March 6.
 Captain B. S. Walden, president of the Kansas City Oklahoma colony which left here recently for Indian Territory, returned to-night. He says other members are coming home across the country, and announces his intention of organizing again and making another start for the ceded lands as soon as practicable. He reports remnants of Payne's band in camp near Arkansas City and that they contemplate another raid.

Texas Land Swindlers.

AUSTIN, Texas, March 6.
 The school land laws are grossly violated by the use of fictitious names. Four surveyors, in collusion with speculators in one syndicate, have taken up 320,000 acres, using fictitious names. In the same way individuals have secured twenty to thirty sections. A bill will probably be introduced declaring the sales void.

A New Opium Den.

NEW YORK, March 6.
 A new opium-smoking concern has been opened on Sixth avenue and is patronized by many others than Chinamen. A San Franciscan who lately became poor is now reduced to the necessity of cooking opium for others to smoke, and he says the patrons are increasing, particularly among Americans.

A Prize-Fight.

NEW YORK, March 6.
 A prize-fight at Collier's station took place between William Morgan, better known as "Sweetzer Bill," of Wheeling and Moses Arnold of Stuebenville, known on account of his vicious habits as "Butcher Moose." The stakes were \$200 a side. Arnold won.

Senator Fair's Diplomacy.

WASHINGTON, March 5.
 Senator Fair gave a dinner party at Wormley's to-night. All the members of the Senate were invited, and nearly two thirds accepted. Covers were laid for fifty.

The Mississippi Flood.

HELENA, Ark., March 6.
 Those families dependent upon the Long Lake levee have become alarmed and are moving stock and goods to places of safety. The entire bottom populace is fleeing to higher land, carrying all valuables. The negroes are panic-stricken, hurrying hither and thither seeking places of security against the relentless water. Desperate efforts are being made to maintain the levee intact. The general opinion is that the maximum of last year will be thrown into the shade by the water now in sight and sure to come. The situation is critical.

Fitzhugh levee, five miles south of this city, gave way last night, and the crevasse this morning is over a hundred yards wide, and increasing rapidly. The rush of water through the opening is terrific. The whole country around the old town is believed to be inundated. Other levees are being strengthened, but it is not believed they can stand another foot of water. A further rise of 15 inches is anticipated, in which case nothing can prevent the inundation of the country contiguous to Helena. The gauge stands eight inches below the highest point reached last Spring. St. Francis river at Madison is several inches higher than last year.

A Life Romance.

NEW YORK, March 6.
 In 1866 Frank Lee and Eliza Bussey were married in this city. Four years later Lee went to New York in search of employment. While there and under the influence of liquor he enlisted and was sent to Arizona. About two years later he was taken prisoner by Indians. Mrs. Lee one day received a letter saying her husband had been killed and soon after she married Merritt Cody. When Lee regained his liberty he went to California, where he made money. Coming East he called and made himself known to his wife. An affecting scene followed. Lee and his wife will go to California in a few days. Cody threatens to cause the arrest of the woman on a charge of bigamy.

Silk-Workers and the Tariff.

NEW YORK, March 6.
 At least 25,000 Paterson people are dependent on the silk industry for a living. It created much surprise among working men when manufacturers appeared before the Tariff Commission and consented to a reduction of 10 per cent. The new schedule reduced the duty to 50 per cent. All manufacturers are inclined to think that the settlement of the question will be a benefit to the trade, but workingmen fear that a reduction of the tariff will result in a reduction of their wages.

Somebody Makes a Haul.

PHILADELPHIA, March 5.
 Jesse Williams of Orange county, New York, was robbed of a satchel containing seventy thousand dollars in gold and a gold watch and chain, at a station on the Pennsylvania railroad this evening. He laid the satchel down while eating.

Yellowstone Park Hotel.

WASHINGTON, March 6.
 C. F. Herbert, one of the incorporators of a hotel company seeking privileges in Yellowstone Park, called at the Interior Department and informed Assistant-Secretary Joslyn that his company would go on with the work of hotel building.

A Massachusetts Defaulter.

BOSTON, March 5.
 Eli Gott, cashier of the Rockport (Mass.) National Bank, is a defaulter for between \$8,000 and \$15,000. The deficiency will be made good by his father and brother-in-law and he will probably not be prosecuted.

Before the Board.

CHARGES Preferred Against the Superintendent of the Asylum.
 CARSON, March 6.
 The Board of Commissioners for the insane met to-day, and among other things, considered a number of charges brought against Dr. Dawson, Superintendent of the Insane Asylum. He is charged with neglecting the patients at the asylum in order to practice medicine in the town of Reno; of allowing gambling in the asylum; of being lax in discipline and allowing dangerous patients too much liberty; of keeping a woman of bad reputation as an attendant; of being of a haughty and unsocial temper, etc.

A motion was made to remove him, but it failed to carry. Huffaker, Tuft and Deal voting in the negative and Adams, Hallowell and Laughton aye.

Found Dead in the Bay.

SAN FRANCISCO, March 5.
 The body of Charles Ferris, a sailor, was taken from the Bay this morning. There is suspicion of foul play, as there was a wound on the head, and about \$150 he was known to have on him yesterday was missing. The body of William H. Hale, a clerk, was also found in the Bay. It bore many bruises. He left his lodging last night with a stranger.

Painters on a Strike.
 St. Louis, March 6.
 About 100 ornamental painters employed at the Pullman works struck this morning. It appears that the Chinese youth brought to this country six years ago by R. M. Johnson of this city, then Consul to Hong Kong, was placed in the shop by the Superintendent to work, preparatory to a course of study at the School of Mines, to which he was sent a year since. This was fully explained to the men, but they objected and quit work. The Superintendent of the works says he intends to conduct the business in his own way and that he will not yield to the men.

The British in Egypt.
 LONDON, March 5.
 Gladstone states that the Government intends to withdraw its troops from Egypt as soon as the aims of occupation have been obtained. These were the establishment of order and liberty and securing the passage of the Suez canal.

London, March 6.
 Gladstone in the Commons last night said the recent surmise of Hartington that the evacuation of Egypt might be completed in six months was merely an expression of hope founded on circumstances.

Irish Items.

DUBLIN, March 5.
 The Freeman's Journal says it is believed the French authorities to-day released Byrne. An affidavit proving an alibi in his case has been forwarded to Paris.
 Dennis Field, a juror in the Hynes case, who was sick abed after the conviction of Hynes, has lodged a claim for ten thousand pounds as compensation for injuries.
